Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Mishima et al. Mishima et al discloses a multicylinder engine including an exhaust manifold 31, an exhaust guide 30 joined to the lower end of the exhaust manifold via a joining part , wherein the portion of the exhaust manifold 31 that is lower than the lowest combustion chamber is bent (figures 2 and 7) so as to be farther away from the cylinder head than other portions of the exhaust manifold. The joining part (figure 7) joins the exhaust manifold and the exhaust guide via a seal 36 and a water jacket 37 is provided around the seal.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Takahashi et al discloses an outboard engine including an exhaust system including a manifold having a bent in the lower end thereof.
